Traditionally used Cakes as Fertilizers

- Rich source of **nitrogen phosphorus and potassium** and other vital mineral, fibre and proteins to **Support healthy plant growth & increased productivity**
- Made with multiple nutritionally high quality cakes like **mustard, hempseed, kalonji, jojoba, sesame, neem, coconut.**
- Cakes are also a good source of sulphur, magnesium, manganese and zinc. hence provide plant all the nutrients it needs for **vibrant growth, flowering and fruiting.**

A soil supplement that acts as natural nematicide,
reduce soil alkalinity and lowers nitrogen loss

A perfect organic protein boost for plants
